Subject: RE: Arkwood Enforcement Officer

Hi Larry, welcome to the Arkwood site team. As Carlos stated below, the new dioxin cleanup levels may result in a new extent of contamination. I've included two maps as a quick summary. Additional information on dioxin soil cleanups can be found here: <http://www.epa.gov/superfund/health/contaminants/dioxin/dioxinsoil.html>

*Marlene Berg is the HQ dioxin coordinator and Barbara Gutierrez is her enforcement contact. The rest of the site team members are provided below.

Arkwood, Inc. Superfund Site:

Management/EPA:
Charles Faultry, superfund remedial associate director
John Meyer, superfund remedial deputy associate director
Carlos Sanchez, AR/TX section chief
Chris Villarreal, risk & site assessment section chief

Lydia Johnson, enforcement assessment section chief

Staff/EPA:

Stephen Tzhone, site RPM
Ruben Moya, backup site RPM
Gloria-Small Moran, site attorney
Casey Lockett, reuse coordinator
Scott Huling, hydro support
Jon Rauscher, risk assessment support
Ghassan Khoury, risk assessment support
Lawrence Andrews, enforcement support

Other Agencies:

Mark Moix, Arkansas DEQ, state PM
Kent Becher, USGS, hydro support

Subject: Arkwood Enforcement Officer

Lydia,

We are doing a re-assessment of the Arkwood Site (PRP) and need to have an enforcement officer involved. Due to the new dioxin levels, the contamination may extend to adjacent properties that were not part of the original cleanup. Please assign an Enforcement Officer. Thanks CAS

Carlos A. Sanchez
